

Two or Four-shutter Foldable

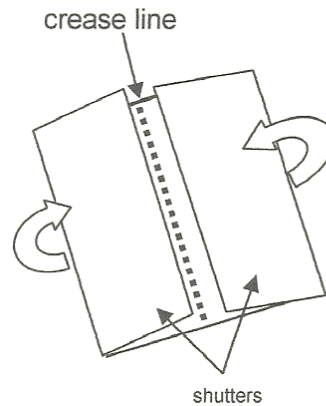

1

crease line

1. Find the center of the plain sheet of paper by folding it in half and creating a crease line.

2

2. Fold each side towards the center of the paper and align the each edge with the center crease line. Crease each fold well.

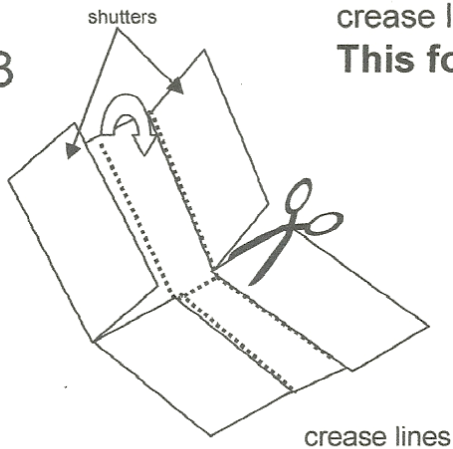

This forms a two-shutter foldable.

or

3. Take the two-shutter fold and fold it in half. Create a crease line. Cut along the two shutters at the crease line.

This forms a four-shutter foldable.
